DETAILED ACTION

Claims 1-67 are pending.

Election/Restriction

Restriction to one of the following inventions is required under 35 U.S.C. 121:

- I. Claims 1-43, 49-51, 53, 54, 56-59, 62, 64 and 65, drawn to a an expression cassette comprising *lux* genes, a vector comprising it, a cell transformed with the same and a method of use of said cell, classified in class 435, subclass 252.3.
- II. Claims 44-48, 52, 55, 66 and 67, drawn to a an expression cassette comprising *luc* gene, a vector comprising it, a cell transformed with the same and a method of use of said cell, classified in class 435, subclass 252.3.
- III. Claims 60, 61 and 63, drawn to a transgenic organism and a method of use thereof, classified in class 800, subclass 13.

The inventions are distinct, each from the other because of the following reasons:

Inventions I and II are patentably distinct because they are directed to materially different products and methods of use thereof. *lux* genes and *luc* gene are different

Application/Control Number: 09/657,289 Page 3

Art Unit: 1652

compounds each with its own chemical structure and function, and they have different utilities.

Inventions I and II are patentably distinct from invention III because inventions I and II are directed to a specific compound characterized by a specific structure while a transgenic organism of invention III is a complex entity comprising a great number of different molecules acting in correlated mechanisms.

Methods of inventions I and II and methods of invention III use different products, protocols and have different utility.

Because these inventions are distinct for the reasons given above and have acquired a separate status in the art because of their divergent subject matter, fall into different statutory classes of invention, and are separately classified and searched, restriction for examination purposes as indicated is proper.

A telephone call was made to Mr. Charles Sholtz on December 10, 2001 to request an oral election to the above restriction requirement, but did not result in an election being made.

Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one

Art Unit: 1652

or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a petition under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(l).

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Elizabeth Slobodyansky whose telephone number is (703) 306-3222. The examiner can normally be reached Monday through Friday from 9:30 AM to 6:00 PM.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Dr. Ponnathapura Achutamurthy, can be reached at (703) 308-3804. The FAX phone number for Technology Center 1600 is (703) 308-4242.

Any inquiry of a general nature or relating to the status of this application or proceeding should be directed to the Center receptionist whose telephone number is (703) 308-0196.
